Friends of the Sacramento Public Library  
Statement on Racial Injustice  
Monday, July 27, 2020

The Friends of the Sacramento Public Library publicly recognize the unjust murders of Black people across the country and the ongoing racial injustices faced by people of color in our society.

The Friends of the Sacramento Public Library stand committed to addressing racist structures, biases, and prejudices that exist and impede people of color in our community. We stand committed as a beacon for our community to educate one another, provide spaces for critical discussions, and create opportunities to learn and grow from each other.

In addition to endorsing the June 1st statement released by the Sacramento Public Library and the recommended anti-racist reading list, the Friends of the Sacramento Public Library plan to take action at an upcoming regularly scheduled meeting to allocate resources to support anti-racist education and other actions to further support Black communities.
